Not for everyone but for you. Secret Bar at Horodetskyi place. There are stone chimeras, green velvet, warm lightning, mirrors and vinyl music. There is a large bar-laboratory with dehydrators, refractometers and centrifuges. The science is combined with the creativity of bartenders creating incredible tastes. Some cocktails were specifically created by Alex Kratena, a guest from London, one of the best mixologists in the world, who was inspired by the Ukrainian local products. By the way, if you suddenly have a feeling that he himself mixes a cocktail at the bar for you, has no hesitation to get an autograph - that's him. And to be honest, you can meet a lot of fantastic people every day here.

Open your heart. Order a cocktail. Adventures begin.
